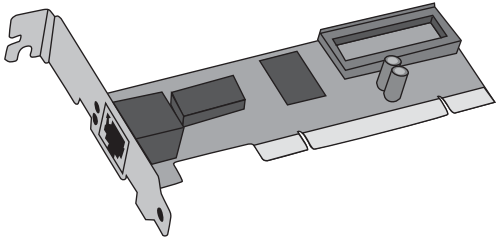
Step 1… Unpack

EZ Card™ 1000 SMC9452TX

10/100/1000 Mbps Copper Gigabit PCI Card

Thank you for choosing the SMC Networks Wired 10/100/1000 Network Interface Card (SMC9452TX). This EZ Quick Installation Guide provides simple setup instructions. For additional information, see the manual included on the CD-ROM.



Box Contents:
One EZ Card™ 1000 (SMC9452TX)
One Quick Installation Guide
One CD containing: EZ Installation Wizard, Manual, and Driver

Before you begin installation please verify the following:

- All of the box contents are included
- At least one windows-based desktop computer has a CD-ROM Drive
- You have an Ethernet cable to attach to hub, switch, broadband router, broadband modem etc..

* NOTE: Please DO NOT install the SMC9452TX prior to running the EZ Installation Wizard.

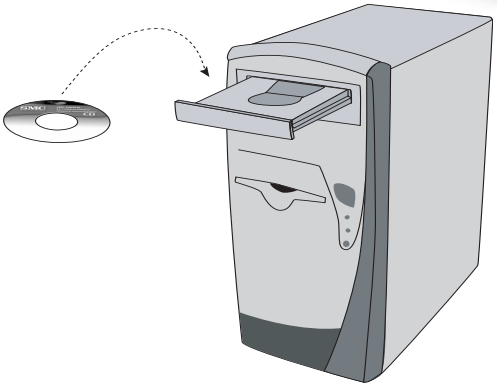
Step 2… Load EZ Installation Wizard

Once you have removed the SMC9452TX contents from the box, you are ready to install the EZ Installation Wizard.

- If the computer is off, turn it on
- When the computer boots up, insert the SMC9452TX CD-ROM into the CD-ROM drive of the computer that you are going to install the SMC9452TX

NOTE: If the EZ Installation Wizard does not start automatically, follow the steps below to start the program:

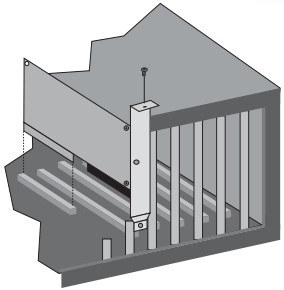
1. Double-click the [My Computer] icon.
2. Double-click on the CD-ROM or Compact Disk icon to view the contents of the Installation CD.
3. Click on the [EZ Install] icon to launch the program.



Step 3… Installing Network Card

NOTE: Network cards are sensitive to static electricity. To protect the card, avoid touching its electrical components and always touch the metal chassis of your computer before handling the card.

1. Switch off the computer, unplug the power cord, and remove the computer's cover.
2. Select an unused PCI bus-master slot and remove its protective bracket.
3. Carefully insert the card and press until all the edge connectors are firmly seated inside the slot. Then screw the card's bracket securely into the PC's chassis.



4. Connect the EZ Card™ 1000 (SMC9452TX) directly to a 10BASE-T or 100BASE-TX hub or switch using UTP cable (Category 3, 4, or 5 for 10BASE-T; Category 5 for 100BASE-TX). The maximum allowable length of UTP cable connections is 100 meters (328 ft). When inserting an RJ-45 plug, be sure the tab on the plug clicks into position to ensure that it is properly seated.

5. Replace the computer's cover and power it on. Once the computer has booted you will be networked!
